Divebooker.com organic search performance — trailing 12 months

Source: Google Search Console (Web search, last 12 months, divebooker.com). Highlighted bars mark the Dec 2025 and Jun 2026 comparison points.

What drove the growth

- Published 46 SEO-optimized articles, including 4 destination content clusters (Red Sea, Caribbean, Galápagos, Indonesia) and an evergreen “Where to Dive in [Month]” series.
- Designed and rolled out a new blog content structure across the site.
- Refreshed 25+ existing articles: cleaned tracking parameters and added internal links from articles to country/destination pages.
- Built and documented an SOP for article creation and editing to standardize keyword research, briefs, and publishing.
